CURRENT SCHOOL EXPENSES

Beginning July 1, 1936 and Ending June 30, 1943

It will be observed from the list of teachers given above that there were four changes at the beginning of this school year.

The directors have been very fortunate in obtaining the services of well qualified teachers to fill these positions.

We have not had this number of vacancies at one time in many years, but the war and demands for teachers in other school systems are responsible for the many changes experienced throughout this country during the present war conflict.

The supply of qualified teachers is the most serious National educational problem our people have ever faced.

We must encourage young students, who are so inclined, to prepare for the teaching profession. The opportunities of the future in this field are unlimited.

The town of Clarendon has maintained good schools for a long period of time and this year is no exception.

This is made possible through the cooperation of the citizens.

I have seen no better spirit of encouragement in any district than was demonstrated during this last fall term in Clarendon. This is the kind of support that all teachers appreciate and it brings good dividends.

The directors give very careful attention to all school property and the buildings are in good condition. A new chimney at Clarendon Flats would not only be a needed improvement but will save money in the long run.

I think the directors understand this situation.

I am convinced that the citizens of Clarendon are deeply interested in providing the best possible educational opportunities for their children.

Respectfully submitted,
FREDERICK W. WALLACE,
Superintendent.
